BRANSON R. RAUCH.

A young country boy stalked into our office Saturday, and after looking at the faces of the Democratic war-horses upon our sanctum walls for a few minutes, and gawking about generally, he blurted out: "Is this here a hardware store, I want a plow handle?" Upon being told of his mistake he was very much surprised to find himself not in a hardware store! The same day another youngster came in and enquired if we had any ten cent shoe brushes!

An exchange says that no insect that crawls can live under the application of hot alum water. It will destroy red and black ants, cockroaches, spiders, bed-bugs and the myriads of crawling pests that infest old houses during the heated term. Take two pounds of alum and dissolve in three quarts of boiling water, let it stand on the stove until the alum is melted, then apply it with a brush, while nearing boiling, to joint crevices in your closets, bedsteads, pantry shelves and the like.

Wm. Thrapp of this township had a narrow escape from being burnt out last Saturday night. Along about 7 o'clock in the evening smoke was seen issuing from the upper part of his residence, which upon investigation was found to originate in one of the rooms where a sack of feathers was lying upon the floor. The feathers had taken fire in some mysterious way, thought to be spontaneous combustion. The incipient fire was put out with but little damage. It was indeed a narrow escape.

On account of an unforeseen delay in the presentation of "Across the Andes"—the first of an important series of papers on the South American—the publication of Harper's Magazine for September has been postponed to August 26th. The South-American tour recently made by Theodore Child, under the auspices of Harper's Magazine, may be regarded as one of the most important journalistic enterprises of the present year. The series of articles resulting from this tour will embody Mr. Child's personal experiences and observations, and will contain maps and numerous illustrations by the best American artists.

A Daring Feat!

There is not a person in the county or surrounding country who should fail to be upon the Napoleon Fair Grounds on Thursday, Sept. 11th. Upon that day Prof. Williams will make a trip to the clouds in his mammoth balloon, and while thousands of feet above the earth will drop and gradually descend with his parachute. The feat is one of the most daring executed in the 19th century and no one can afford missing the sight. Remember the day, Sept. 11, Napoleon Fair Grounds.

A Big Sale.

One of the largest sales in Napoleon is the big wall paper sale at Saur & Balley's Drug and Book Store. This house has just placed on sale an elegant stock of wall paper for their fall trade at lower prices than ever before. This stock embraces all the best and latest patterns of the season. It was bought direct from the manufacturers at their July sales and is all first-class stock. This is a rare opportunity for all those who expect to fix up their houses so as to make them look nice as well as warmer and made comfortable at a very little expense. It is really wonderful how much warmer it makes a room to have the sides and ceilings well papered. If you will take the trouble to examine this stock we are very sure that you can and will make a selection which will please you very much.

Look Out for Paint Swindlers.

Peter Beerbower informs us that a gang of roof painters, making Hickville their headquarters, are doing up the farmers in this vicinity in great shape. Two of them, traveling about in a buggy, take the orders, and four men follow and do the work. Mr. Beerbower says they painted his roof and charged him \$20, when it is worth about \$5. He says they represent that the paint is some wonderful secret combination that costs them \$30 a barrel. Mr. Beerbower's opinion is that it is nothing but coal tar. He says the farmers all about here are falling victims.—Hickville News.

Farmers should patronize home dealers and men they know, and then they won't be swindled. Tramp painters and tramp peddlers are always on the lookout for suckers, and when they catch one they skin him to the Queen's taste. If you bite after this warning you deserve to be swindled.

Death of Mrs. S. M. Hague.

On Saturday night last, after a long illness and much patient suffering, the spirit of Mrs. S. M. Hague took its flight back to its maker. Mrs. Hague was a lady dear to the hearts of her associates, and was loved by all for her motherly and lovable character, having the faculty of winning as friends those coming in contact with her. Highly educated and of a jovial disposition, she was an ornament to society and the community in which she lived, and will be one much missed from among the living. And, being one greatly attached to her home and family, here she will be sadly and tearfully missed, for she was a kind and indulgent mother, the idol of husband and children. Her funeral took place on Tuesday, from the M. E. Church, the services being conducted by Revs. Campbell and Donahay, in the presence of a large concourse of friends and neighbors. The funeral was rendered doubly sad by the fact that Miss Lallah could not attend, on account of illness. She has been confined to the house for a number of weeks and is just convalescing from a severe illness. Her many friends hope for her speedy recovery and extend condolence in her great bereavement. Sympathy is also extended to the bereft husband and sons. The floral offerings to the memory of the departed were most beautiful; silent messengers of the esteem in which Mrs. Hague was held by friends and acquaintances.

Teacher's Institute.

The Henry county Teachers' Association met at the Union school building, at Napoleon, Monday, Aug. 18, 1890, to hold the annual institute. Supt. W. W. Weaver, of Napoleon, and Supt. G. W. Henry, of Leontonia, were the instructors. The attendance was so small on Monday that no session was held until the afternoon. Before the day was over, however, twenty-seven teachers had enrolled and this number was increased each day until the roll showed the number of one hundred and eighteen; forty-three more than were enrolled last year.

The instruction given was good, and of such a character that no teacher could afford to lose. Prof. Henry's subjects were Language, Numbers, Physiology and Reading. His addresses, with the exception of Physiology, were devoted chiefly to primary work. He not only presented his subjects in an interesting form, but developed his methods of teaching them in a manner that cannot fail to be of practical benefit to those teachers who put his instructions to use. Prof. Henry proved himself to be an enthusiastic educational worker and succeeded in imparting much of his spirit to attentive listeners. His lessons on Physiology were timely; teachers now being required by law to teach the subject. In presenting the subject he dwelt particularly on the effects of narcotics on the system.

Prof. Weaver taught Grammar, Geography, Arithmetic, and History. His instructions were confined to the work to be done in the higher grades of school. He encouraged teachers to seek a broader knowledge of a subject than that found in a single text book, and showed that it is his duty to impart to the public a spirit of investigation which is the essence of all true education.

The teachers took quite a general interest in the discussion.

On Tuesday evening a temperance cantata was given by the little folks for the entertainment of those attending the institute. For the success of this we are indebted to Miss Mary E. Barnes, who deserves much credit for her work. On Thursday evening about forty of the teachers took advantage of the excursion to Girty's Island.

After Monday the institute held two sessions a day with the exception of Wednesday afternoon, when all were given an opportunity to go to the Fair grounds and hear Ex-President R. B. Hayes deliver an address before the Monumental Association.

The following resolutions were adopted: WHEREAS, This meeting of the Henry county Teachers' Institute has granted us another opportunity of improvement, we used through the faithful labor of the Executive Committee and officers, therefore,

Resolved, That we extend our thanks to the Executive Committee and officers.

Resolved, That we appreciate the kindness of the Napoleon Board of Education for the use of their school building.

Resolved, That we heartily appreciate the help and labor of Supt. W. W. Weaver and Supt. G. W. Henry.

WHEREAS, There is a great lack of thoroughness in the present Board of County School Examiners, as well as a lack of ability, therefore,

Resolved, That we favor the appointments of experienced and thorough teachers to the Board of County Examiners.

WHEREAS, The legislature of the State has passed a good truancy law.

Resolved, That we appreciate this law and favor its enforcement.

WHEREAS, Other States are prosperous under county supervision, therefore,

Resolved, That we favor county supervision.

WHEREAS, A great many teachers of the county were conspicuous by their absence, therefore,

Resolved, That we favor compulsory attendance of teachers and examiners at county institutes.

Resolved, That we heartily enjoyed the excursion to Girty's Island and regard Thursday evening as an evening well spent, and is a feature worthy of being repeated.

Oklahoma Election.

OKLAHOMA CITY, I. T., Aug. 25.—The total vote cast at Saturday's election in this county was 2,175, of which Nagle, democratic candidate for representative at large, received 1,055, and Colson, republican 955. For county representative, Neal, democrat, has a plurality of 261 over Miller, republican. Powell, the union labor candidate, received 189 votes. The result of the election does not change the political complexion of the legislature, the republicans having a majority of two.

DIED.

FINKE.—In Napoleon, O., Sunday morning, Aug. 24th, 1890, at 4:25 o'clock, of inflammation of the stomach, Mrs. Hattie C. Fink, daughter of Mary A. Putt, aged 45 years and 24 days.

BEVELTHER.—Margret Bevelthyer died in Harrison township, Aug. 19th, 1890, of heart disease, aged 87 years, 10 months and 9 days. She leaves three sons and two daughters to mourn the loss of a kind mother. Their father was layed to rest in hope of a glorious resurrection twenty-six years ago. The mother remained a widow and gave full proof of devotion to God. Many years ago she accepted Christ as her Saviour. After having done all she could for her children and friends she quietly fell asleep in the Lord, leaving us the memory of her quiet christian life as a blessed legacy full of power and truth. May we as children and neighbors find comfort in the prospect of meeting again.

In the earliest never moving, Lies our mother's form, She crossed the dark river, She is sleeping her last sleep.
